PROFESSIONAL EXPERIENCE

SENIOR REACT NATIVE DEVELOPER

January 2025 - Present

Arrcus Inc, Remote

- Leading the development of scalable mobile applications with **React Native** and TypeScript, ensuring smooth cross-platform performance.
- Collaborated directly with product managers and designers to refine UX and implement dynamic feature sets.
- Integrated third-party SDKs and handled deep linking, push notifications, and performance monitoring.
- **Mentoring junior developers** and overseeing code reviews to maintain high-quality standards.

Key Achievement: Successfully led and deployed a multi-module app with deep linking and native module integration within 2 months of joining.

TEAM LEAD

December 2021 - January 2025

Bitnet Infoway, Rajkot

- **Led development teams** across multiple web and mobile projects, successfully managing diverse teams and maintaining strong relationships with international clients
- **Architected and developed** cross-platform applications using React, React Native, and Flutter, driving innovative solutions that increased user engagement by 40%
- **Orchestrated development workflows** using Agile methodologies, reducing project delivery times by 25% while maintaining code quality
- **Mentored junior developers**, providing technical guidance and code reviews that improved team productivity and code standards

Key Achievement: Successfully delivered 5+ complex mobile applications on time and within budget, receiving client satisfaction ratings above 95%

KEY PROJECTS

REEVA (Real Estate Contract Drafting App) | [Link](#)

- Reeva helps agents draft contracts quickly using AI. It includes an AI chat assistant that guides them step by step while creating contracts. The app also has signature flow automation, making it easy for all parties

to sign documents without delays.

Klizpy (Shorts Video App) | [Link](#)

- An interactive short video app where users engage with videos using multiple emojis, influencing the creator's score. Scores are displayed on a dynamic leaderboard for real-time competition!

GamiNiVato (Gujarati Farmer Helper App) | [Link](#)

- GamiNiVato – A Gujarati farmer helper app where farmers can sell products, check yard prices, connect with traders, and share videos for better engagement and growth!

Alfa (Education App (ILTS)) | [Link](#)

- Alfa PTE is a student PTE practice application for Pearson VUE exams like PTE Academic, PTE Academic UKVI, and PTE CORE & PTE Home, which has been developed by an Australian-based training school. The app offers free practice & comes with state-of-the-art Artificial Intelligence Scoring with highly accurate results.

Fyerdate (Social Media App) | In Development

- Fyerdate – A unique dating and social media app where users can share posts, shop, chat, and enjoy short videos, all in one engaging platform!

EDUCATION

DIPLOMA IN INFORMATION TECHNOLOGY

Government Polytechnic Rajkot

July 2018 - June 2021
