

Yogesh Solanki

React JS & React Native Senior Developer | 4.5+ Years Experience

Rajkot, India • +91 9904654107 • solankiyogesh3500@gmail.com • LinkedIn • GitHub

PROFESSIONAL SUMMARY

I am a mobile and web app developer with over 4.5+ years of hands-on experience building complex, user-friendly applications from the ground up. I primarily work with React, React Native, and TypeScript, focusing on creating scalable and highly responsive products. Over the course of my career, I've had the opportunity to lead development teams and work closely with international clients to turn their ideas into real-world solutions that users actually enjoy using. I continually explore native technologies like Java and Kotlin, and actively experiment with integrating AI capabilities into digital experiences.

TECHNICAL SKILLS

Mobile & Frontend

React JS, React Native, Flutter, TypeScript, JavaScript, Vite JS, Tailwind CSS, Kotlin, Java, Dart

Backend & Database

Node.js, Express, Django, Go (Learning), PostgreSQL, Firebase, REST APIs

DevOps & Architecture

GitHub Actions, AWS, CI/CD pipelines, System Architecture, State Management

Key Operational Practices

Agile Workflows, Clean Code, Performance Optimization, App Store Deployment

PROFESSIONAL EXPERIENCE

Senior React JS & React Native Developer

Jan 2025 – Present

Arrcus Inc (Remote)

- Developing high-performance cross-platform mobile apps ensuring consistent 60fps UI experience.
- Integrated deep linking, analytics, and third-party SDKs, significantly improving user retention.
- Optimized application performance, successfully improving initial load times by 40%.

Team Lead – React JS & React Native

Dec 2021 – Jan 2025

Bitnet Infoway

- Mentored junior developers and implemented scalable architecture patterns across multiple projects.
- Led development cycles across 5+ applications, achieving a 95% on-time delivery rate.
- Built scalable applications that increased overall user engagement by 40%.
- Implemented Agile workflows and Sprint planning, reducing delivery time by 25%.
- Consistently delivered high-quality applications maintaining 4.5+ star ratings on the Play Store.

EDUCATION

Diploma in Information Technology

2018 – 2021

Government Polytechnic Rajkot

PROJECTS

Reeva (AI Real Estate Contract App)

Web App

- Developed AI-assisted contract drafting app reducing creation time by 70% for agents.
- Integrated chat assistant & automated signature flow improving operational efficiency.
- Built with React Native, serving 500+ real estate professionals across India.
- Engineered a high-performance PDF generation engine that dynamically populates complex legal clauses, ensuring 100% document accuracy and compliance with local regulations.
- Optimized document rendering engine to support complex legal templates with dynamic data injection.

React Native

AI Integration

Digital Signature

Klizpy (Short-Video App)

Mobile App

- Engineered gamified short-video platform achieving 10K+ installs and 60% engagement boost.
- Implemented real-time emoji reactions, scoring, and dynamic leaderboards using Flutter.
- Integrated high-performance video player with custom caching logic, reducing buffering by 50% on slow networks.
- Architected a low-latency leaderboard system capable of processing real-time scores for thousands of concurrent users using optimized state management.

Flutter

Real-time

Gamification

GamiNiVato (Farmer Helper App)

Mobile App

- Created marketplace for 5K+ farmers enabling product sales, yard price checks & community sharing.
- Localized React Native app in Gujarati improving rural tech adoption by 45%.
- Implemented offline-first synchronization using SQLite, ensuring reliable data access for farmers in areas with poor connectivity.
- Designed a robust local caching mechanism that allows users to browse products and check market rates without an active internet connection, syncing once restored.

React Native

Localization

AgriTech

Alfa (Education App – PTE Practice)

Web App | Mobile App

- Developed AI-driven PTE preparation app with 95% scoring accuracy used by 20K+ learners.
- Integrated advanced AI scoring reducing grading time by 80%.
- Designed a scalable micro-benchmarking system to track AI model performance across different student demographics.
- Implemented a comprehensive analytics dashboard for educators to monitor student progress in real-time, providing actionable insights through automated reports.

React JS

React Native

AI Scoring

EdTech

Fyderdate (Social Media & Dating Platform)

Mobile App

- Architecting multi-feature social platform with shopping, video & chat integration.
- Building scalable real-time backend for 100K+ potential user growth.
- Implementing advanced end-to-end encryption for private messaging and secure user data handling protocols.
- Developing a modular architecture for the social platform to support seamless integration of future features like multi-vendor e-commerce and video broadcasting.

Full Stack

Real-time

Scalability

OPEN SOURCE CONTRIBUTIONS

RN Video Cache

A Turbo Module-based solution for caching online video playback.

RN Camera Roll Fetcher

A lightweight TurboModule to handle iOS asset URI conversions reliably.

RN Turbo Location Enabler

A utility designed to check and prompt users for location permissions.

RN Real Path

An Android-specific utility that resolves real file paths from content URIs.
